Re: Ulster in Bloom 2011 Results

Dear Maurice,

May I on behalf of the NILGA Office Bearers, congratulate you on your Council's success in winning the 2011 Translink Ulster in Bloom 'City Category'. Derry City was a welcome and deserved winner and fought off some tough competition to achieve this great success.

In an effort to take the Council's success further we plan to put Derry City forward to represent Northern Ireland in the 'Small City Category' of the 2012 Royal Horticultural Society, Britain in Bloom Competition.

We believe the Ulster in Bloom Competition has made a major contribution to the environmental improvement of Northern Ireland over the last 33 years and in association with Britain in Bloom, it has generated valuable positive press coverage for all involved. Participation in this Competition motivates staff and encourages contributions not only, from the commercial sector but also local community groups.

I encourage you to put this letter within the agenda of the most appropriate Standing Committee in order to ensure that your Council Members and Officers are informed.

Yours sincerely,

Councillor Evelyne L Robinson
President, Northern Ireland Local Government Association
